[You can also click here to get the QR Code](#)

SM-DP\_Address: **rsp.esimnext.com**

Activation Code: **B4EF26529A664F0BA959D6A949A4B1BF**

[For iOS Users: Click Here to Install Directly \(Requires iOS version 17.4 or later\)](#)

[Track Your Data Usage \(Total Data Plans Only\)](#)

For Daily Packages, Please Contact Our Customer Service.

**Note:**

- 1) **Important!** Please scan the QR code in your **device's eSIM** settings to download profile. Do not use your camera or other APP to scan the code, it has to be done through your device's settings.
- 2) The eSIM QR code is valid for 90 days. You must add and activate your eSIM in one of the covered countries within this period. Otherwise, it will expire.
- 3) If you encounter any issues during the setup or activation process, please contact us via SHOPEE and provide your order number or ICCID.

**[How to Install and Activate eSIM]**

A stable Wi-Fi/network connection is required to install the eSIM

You can save the eSIM Qr code to your phone's gallery in advance for easier scanning.

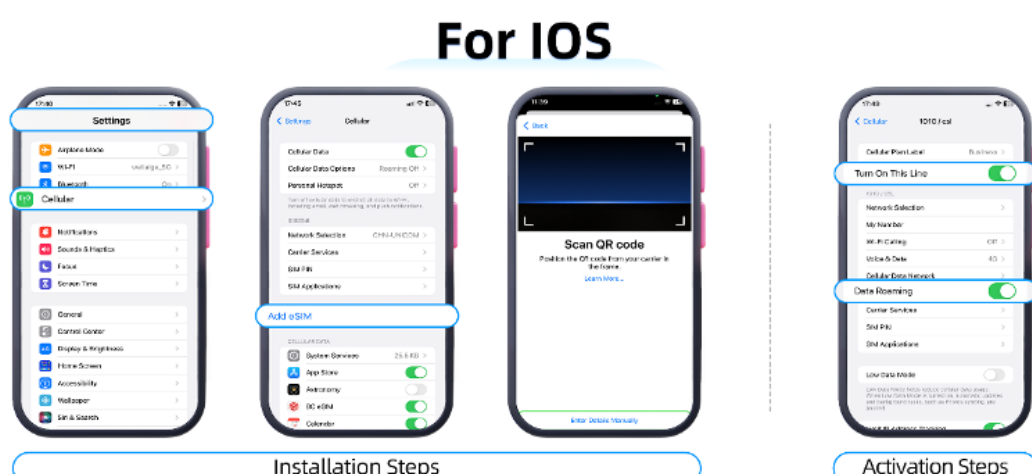

**For iOS Devices**

1、Installation Steps:

- 1) Go to Settings → Cellular/Mobile → Add Cellular/Mobile Plan
- 2) Scan the QR code or manually enter the SM-DP+Address and Activation Code.
- 3) Follow the prompts too configure your eSIM and choose default voice/data line.

2、Activation Steps:

- 1) Once you arrive at your destination, enable your eSIM for **cellular data**.
- 2) Choose the eSIM, enable 'Turn On This Line', and Turn On 'Data Roaming'.

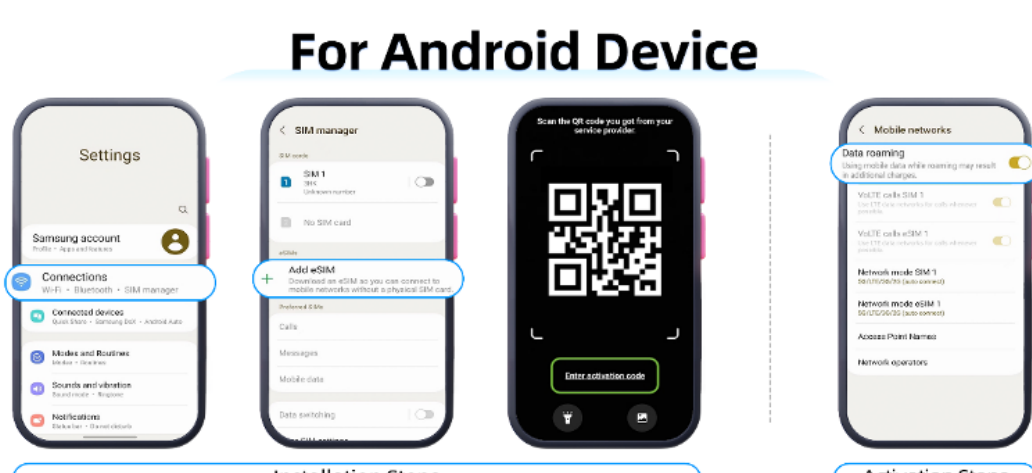

**For Android Devices**

1、Installation Steps:

- 1) Go to Settings → Connections or Network & internet → SIM manager → Add eSIM
- 2) Scan the QR code or manually enter the SM-DP+Address and Activation Code.
- 3) Follow the prompts too configure your eSIM and choose default voice/data line.

2、Activation Steps:

- 1) Once you arrive at your destination, enable your eSIM for cellular data.
- 2) Turn on Data Roaming to start using the service.

**APN Settings:**

If there is no network response, toggle Airplane Mode ON for about 3-5 seconds, then turn it OFF.  
If you are still unable to connect, please check if the APN is correctly set.

For Samsung: Go to 'Settings → Connections → Mobile networks → Access Point Names → Edit APN/Add APN → Enter APN Details → Save APN'.

For Google: Go to 'Settings → Network & internet → Tap + next to SIMs → eSIM → Access Point Names → Edit APN/Add APN → Enter APN Details → Save APN'.

For iOS: Go to 'Settings → Cellular/Mobile Data → eSIM → Cellular Data Network/Mobile Data Network → Enter APN Details'.

**Thank you for choosing "eSIM NEXT." Wishing you a pleasant journey.**
